CorelDRAW®

GRAPHICS SUITE 2021

Product Guide

Say hello to
CorelDRAW Graphics Suite 2021

Professional graphics software that fuels your creative fire.

Graphics professionals are looking for powerful solutions to boost their productivity. Deadlines and margins have never felt tighter. Businesses of all sizes are seeking new ways to connect with customers. And as the home has become central to how many of us work, staying connected with colleagues, clients and even friends looks very different from just months ago.

CorelDRAW® Graphics Suite 2021 has evolved to meet these quickly changing needs head on. Doubling down on collaboration, our next-generation tools make it possible to gather comments and resolve feedback in real time, no matter where team members or clients are located. Boosting the design process, advanced illustration and photo editing features help you achieve the exact look and effect you envisioned in record time. Plus, new workflows put you in control of your pages and assets, taking projects from ideation to final output, faster.

With a laser focus on collaboration, productivity and flawless results,

CorelDRAW Graphics Suite 2021 is an essential tool for the way designers work today.

Designed to get the job done: Tackle projects quicker and more easily with new, progressive illustration and photo editing tools. Boost your productivity with next-generation collaboration that streamlines your design journey and review process, and create more efficiently with our new flexible design space with multipage and multi-export workflows.

Push the boundaries of design: Applications for vector illustration and layout, photo editing, and typography help you fully unleash your creative genius in digital and print. Our new Draw in Perspective feature simplifies a typically complicated workflow, giving you more time to do what you love.

Control your creative journey: Enjoy the freedom to choose how you create your best work thanks to powerful graphics tools built for Windows, macOS, mobile, web, and now, an all-new app for iPad. Customizable workspaces on Windows and Mac let you learn and thrive in a space that's tailored just for you. Create compelling designs how you want, when you want, and where you want.

CorelDRAW is everywhere!

Enjoy a true cross-platform experience on Windows, Mac, web, iPad, and other mobile devices. With a new touch-optimized user interface, CorelDRAW.app™ expands what's possible on mobile and tablets, and a new iPad app makes it even easier to design on the go.

Designed for Windows 10

- **Pen and Touch** – Create quick adjustments with your finger or a stylus, thanks to a Touch workspace that maximizes the size of your drawing window by displaying only the tools and commands used most often. Work quickly and efficiently with Windows Real-Time Stylus pen-compatible tablets, such as the Microsoft Surface, in addition to Wacom tablets and devices.
- **Dial** – Enjoy support for wheel devices, such as the Microsoft Surface Dial. Experience an alternative way of working in CorelDRAW® by using touch and dial alone. Put your keyboard aside and try the contextual onscreen UI.
- **Display performance** – CorelDRAW Graphics Suite 2021 on Windows is optimized to fully leverage your system's graphics processing unit (GPU) and deliver significantly smoother panning and zooming. Whether you're using a mouse or trackpad, you can navigate even the most complex layouts with perfect fluidity.

Don't let your desk limit your imagination

- Turn great ideas into amazing designs the moment they arise with the versatile CorelDRAW.app.
- Access your work whenever and wherever it's convenient for you with this powerful web app, running on any major browser, on any device.
- With a new touch-optimized user experience, CorelDRAW.app expands what's possible on mobile and tablets, and a new iPad app makes it even easier to design on the go.

Designed from the ground up for Mac

- **Native macOS** – CorelDRAW Graphics Suite for Mac was built from the ground up for an experience that's natively Mac. Menus, windows and views, fields and labels, buttons, and other UI elements reflect the latest in macOS Big Sur. And with native support for Apple Silicon, CorelDRAW Graphics Suite 2021 leverages the exceptional power and performance of the Apple M1 chip.
- **Sidecar** – Accelerate your workflow by using your iPad as a second display. Thanks to support for Sidecar on macOS, you can design on an iPad with an Apple Pencil and see your changes reflected in CorelDRAW on your desktop.
- **Touch Bar** – Leverage the time-saving features of the Touch Bar on MacBook Pro. Not only does this multitouch display give quick access to OS-level controls, but also to functionality specific to CorelDRAW, such as layout settings, text controls, and more.

Who is it for?

CorelDRAW Graphics Suite 2021 has the versatility to satisfy any creative need. Chosen by professionals across a variety of demanding industries, including manufacturing, engineering, sign making, marketing, and more, CorelDRAW Graphics Suite is a trusted tool for designers and businesses worldwide.

Branding & marketing

From creative professionals working in advertising and publishing to small businesses producing in-house marketing materials, CorelDRAW Graphics Suite has the tools to create stand-out brand identity assets, alluring sales materials, and more.

Signage & large-format printing

Professionals in the sign and print industry rely on CorelDRAW to create artwork for a variety of outputs, thanks to a powerful color management engine and superior prepress tools.

Apparel & textiles

Whether for screen printing, embroidery, direct-to-garment printing or apparel, CorelDRAW Graphics Suite has all the tools needed to produce and output designs for the fashion industry.

Retail & e-commerce

With dedicated tools for web and print, CorelDRAW Graphics Suite is ideal for creating point-of-sale promotions, online store assets and social media content.

Illustration & fine art

Illustrators and artists alike can combine their talents and skills with CorelDRAW's powerful vector illustration and image editing to create beautiful, sophisticated works of art.

Giving customers choice

Whether you find it easier to manage your business's annual budget using a subscription or you prefer to own software outright, Corel provides choice by not forcing you into one licensing model.

CorelDRAW for businesses and large organizations

Built with teams and large organizations in mind

CorelDRAW Graphics Suite 2021 is the ideal design platform for teams with multiple designers, stakeholders, and approvers working together on projects. Whether team members work on Windows, Mac or both, IT departments have access to easy software deployment, virtualization support, and the zero-footprint CorelDRAW.app to simplify implementation from start to finish. Plus, organizations of any size, including government and academic institutions, can keep budgets on track thanks to flexible licensing that offers the choice of subscription or perpetual programs.

With the CorelDRAW.app, it's all about collaboration!

Enhanced and streamlined collaboration workflows make it simple to send work for review, feedback, and approval in a highly efficient and seamless way. Designers can use Dynamic Text Co-editing to maintain control of specific properties (like the font, size, color, and location of a text element) while giving contributors the ability to implement final copy without compromising design integrity. When it comes time for review, stakeholders can use a variety of commenting and annotation tools in CorelDRAW.app while designers keep track of everything with live comments in CorelDRAW 2021.

Note: Collaboration features are available exclusively with a CorelDRAW Graphics Suite subscription, licensing with maintenance, or an additional purchase plan for perpetual license customers.

Feature
Highlights

Firman Hatibu

Advanced Illustration

In a world where time is money, your software should deliver the results you need fast, so you can keep your focus on being creative. Thanks to new precision layout capabilities and the cutting-edge Draw in Perspective feature, CorelDRAW Graphics Suite 2021 makes complicated workflows simple to deliver stunning results in record time.

NEW! Perspective Drawing

Built with speed and increased productivity in mind, this new feature – based on the principles of perspective projection – eliminates the need to first set up complex grids, and displays live previews as you draw, modify, or transform objects. The intuitive camera guides help you smoothly control the depth of field by showing the position of the viewer.

With customizable presets for one-, two- and three-point perspective drawings, the Perspective Drawing toolbar lets you quickly change drawing planes and tailor the appearance of the perspective field to best suit your project or working style.

Easily create multiple perspective groups each with their own unique perspective field within the same page or document. Minimize headaches when working on an intricate layout by locking a perspective field to prevent accidentally moving horizon lines or vanishing points.

ENHANCED! Guidelines

When working with guidelines, you can switch views from world scale to page dimensions in a click. In addition, it's easier to manage custom guidelines, so you can set up the framework for a design faster than ever.

NEW! Snap to self

When working on complex designs in CorelDRAW 2021, a new setting allows you to prevent objects from snapping to their own snap points so you can move and transform design elements with ease and precision.

Flexible Design Space

Speed up your creative journey from design to output with new workflows that put you in control of your pages. With all new ways to navigate and manage your projects and their assets, it's never been faster to get from inspiration to done.

NEW! Multipage View

Accelerate the design workflow with Multipage View and manage all pages in a document simultaneously.

Multipage View offers several display options. If you're working on or reviewing files with a fixed sequence, such as brochures, books or magazines, you can arrange pages in order in a column, row, or grid. When a project contains an assortment of distinct but related assets, such as materials for a marketing campaign, Custom mode lets you freely reorganize non-sequential pages with a simple drag-and-drop.

In either mode, you can quickly move objects from one page to another, snap design elements and link text frames page-to-page, interactively resize pages, choose a preset size, and more.

NEW! Pages docker/inspector

The new Pages docker/inspector lists all pages in a design so you can easily manage them and quickly navigate a project. Each page has a scalable thumbnail preview that reflects its size and content. Reordering pages is as easy as dragging them in the docker. What's more, you can add, delete, and rename pages in one spot, saving you time and effort. With a click, you can switch display modes to either focus on a single page or use the new Multipage View.

NEW! Multi-asset Export

Create a customized list of assets to export. The new Export docker/inspector has a range of flexible, time-saving options for outputting pages and objects.

Send pages or objects to multiple industry-standard formats, including PDF. The same design element can be simultaneously exported with different settings by duplicating it in the Export docker/inspector and modifying the output options. Or you can export several items at the same time using identical preferences.

NEW! Autofit Page

Another time-saver in CorelDRAW 2021 is the Autofit Page feature. In just a click, you can resize a page to fit its content. Quickly customize the margin by specifying the space between design elements and the edge of the page.

Progressive Image Editing

Powerful new photo editing features let you elevate your images in fewer steps. Enjoy a faster, easier route to flawless images and gain back valuable time to exceed client expectations.

NEW! Adjustments docker/inspector

Get instant access to the most critical and frequently used filters, letting you quickly work non-destructively, in real time, and in context. The brand-new Local Adjustment Mode simplifies targeting a filter to a specific image area.

When the results of an adjustment are perfect, the settings can be saved in a click for reuse. You can also choose which filters are on by default at launch so you can get right to work.

NEW! Replace Colors

The Replace Colors filter has been rebuilt from the ground up. Improved color pickers and eyedropper tools allow for more precise editing and a new interactive control makes fine-tuning hue and saturation ranges more intuitive. Corel PHOTO-PAINT 2021 has also added a slider to help ensure smoother color transitions between selected and unselected pixels.

NEW! HEIF support

Take advantage of photos captured on smartphones with High Efficiency Image File (HEIF) support in both Corel PHOTO-PAINT and CorelDRAW 2021.
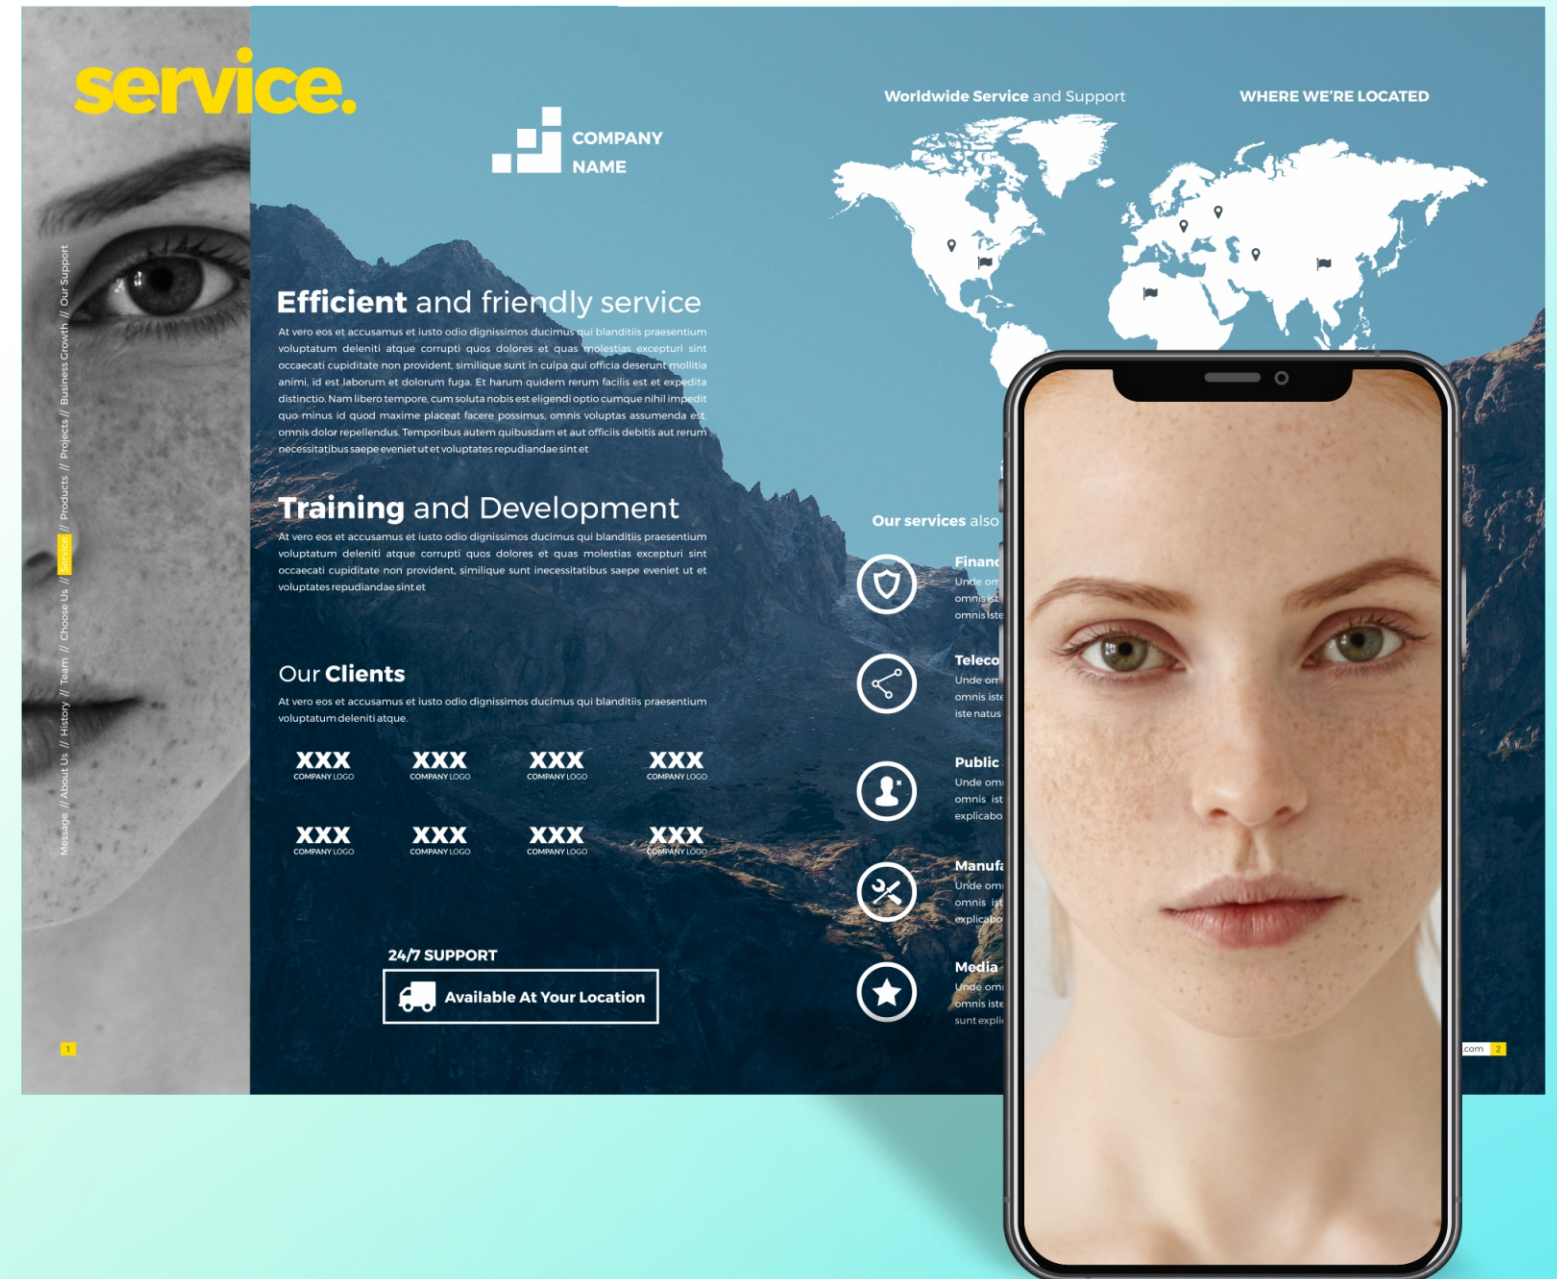

Next-Generation Collaboration

Taking our ground-breaking collaboration features even further, the newly enhanced CorelDRAW.app makes it possible to work with clients and colleagues on design projects in real time. With faster ways to connect and support for Microsoft Teams, CorelDRAW Graphics Suite 2021 makes it simpler than ever to keep projects on track, even as we're forced to work apart.
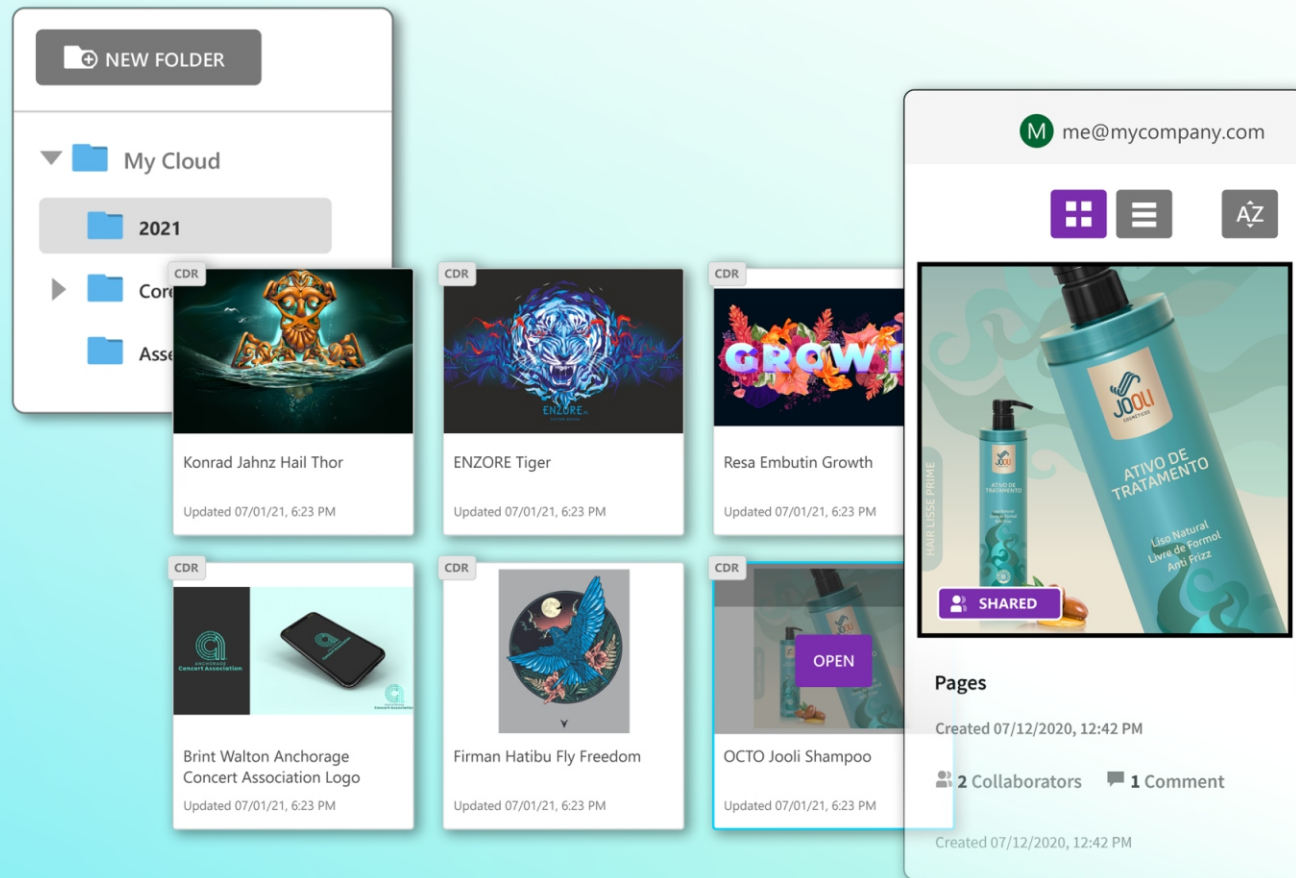

NEW! Live Comments

The new Live Comments feature lets everyone involved in a project work in real time. Stakeholders can comment on and annotate a document in CorelDRAW.app with all feedback instantly appearing in the working file in CorelDRAW 2021. When a designer needs clarification on a piece of input, reviewers immediately see the query in CorelDRAW.app, eliminating any slowdowns in the refinement process and accelerating approvals.

Watch video ▶

NEW! Dashboard

A new dashboard in both CorelDRAW 2021 and CorelDRAW.app acts as your collaboration hub. It contains all your design files in the cloud and, in a click, displays a preview, the number of comments and team members, and project status. The dashboard also lets you share designs directly from CorelDRAW 2021 without having to open each file.

NEW! CorelDRAW.app for Microsoft Teams

CorelDRAW.app for Teams lets you view and edit your CorelDRAW design files in Microsoft Teams. Sign in with your Microsoft 365 corporate user account to create new designs in a meeting, and collaboratively review designs with your team members in real time right inside your Teams channels.

Note: Collaboration features are available exclusively with a CorelDRAW Graphics Suite subscription, licensing with maintenance, or an additional purchase plan for perpetual license customers.
